## Protect yourself against rising drug costs.

You're no stranger to the soaring costs of prescription drugs. But there's something you can do to protect yourself from them. The AARP® MedicareRx Plans, insured through UnitedHealthcare®, offer two plans with \$0 deductibles and predictable copays. They could help you save while giving you the coverage you need.

## Choose from two AARP MedicareRx Plans.

There are two AARP MedicareRx Plans available. Pick the one that may best fit your needs.

- **AARP MedicareRx Preferred (PDP)**

This plan is a good value with robust drug coverage. The drug list includes nearly all generic drugs covered by Medicare Part D and most commonly used brand name drugs

- **AARP MedicareRx Enhanced (PDP)<sup>1</sup>**

This plan has more extensive drug coverage. The drug list includes more than 95% of the drugs covered by Medicare Part D. Plus, there's additional coverage for Tier 1 and Tier 2 drugs in the coverage gap

## Changes to the coverage gap.

For people who normally would have paid full price for drugs in the coverage gap, help is available this year. Members of a Medicare Part D plan will pay 50% of the price (plus the dispensing fee) for brand name drugs and 86% of the price of generic drugs in the gap. And remember, the Enhanced plan provides additional coverage for Tier 1 and Tier 2 drugs in the coverage gap.

## Both plans provide:

- **\$0 annual deductible.** You could start saving with your first prescription
- **Pharmacy Saver™ program.** Offers hundreds of generic drugs for only \$2 a prescription
- **Simple and predictable copays.** You pay a preset amount for each prescription, often as low as \$4
- **65,000 + network pharmacies nationwide.** Our network pharmacy locations include national chains, regional and local chains, and independent neighborhood pharmacies
- **National coverage goes where you go.** Available in all 50 states, the District of Columbia and the five U.S. territories
- **Preferred Mail Service Pharmacy.** Save even more on your medications and get them delivered right to your mailbox
- **Pay the lowest price possible.** During the initial coverage period, you pay the plan's discounted drug costs, retail price or the plan's copay, whichever is lowest when you fill your prescription

## Three easy ways to pay your premium.

Depending on your payment situation, you could choose to have premiums automatically deducted from your Social Security benefit check, your checking account or your savings account. Coupon payment booklets are also an option.

## Call for more information.

Call your health insurance agent to discuss your Medicare plan choices using the business card information on the back. Or, if you prefer, contact UnitedHealthcare directly at **1-866-255-4526**, TTY **711**, 8 a.m. – 8 p.m. local time, 7 days a week.
