- \* The dollar amount copayments indicate what the member is required to pay and the percentage copayments indicate what Aetna is required to pay.
- \*\* Non-Participating Provider payments for facility charges are determined based upon Aetna's Allowable Fee Schedule. Non-Participating Provider payments for other charges are determined based upon the negotiated charge that would apply if such services or supplies were received from a Participating Provider. These charges are referred to in your plan documents as "recognized" charges.
- \*\*\* A member may at anytime seek health care from Participating Providers without first contacting his or her Primary Care Physician. When a member chooses not to use his or her Primary Care Physician, the member is entitled to receive benefits for covered services and supplies. A member will be subject to the Primary Care Physician (PCP) cost-share when a member obtains covered benefits from any participating Primary Care Physician. A member will be subject to the Specialist cost-share when a member obtains covered benefits from any participating Specialist.

Providers are independent contractors and are not agents of Aetna. Provider participation may change without notice. Aetna does not provide care or guarantee access to health services. If you are in a plan that requires the selection of a primary care physician and your primary care physician is part of an integrated delivery system or physician group, your primary care physician will generally refer you to specialists and hospitals that are affiliated with the delivery system or physician group. In case of emergency, call 911 or your local emergency hotline, or go directly to an emergency care facility.

If your plan covers outpatient prescription drugs, your plan may include a drug formulary (preferred drug list). A formulary is a list of prescription drugs generally covered under your prescription drug benefits plan on a preferred basis subject to applicable limitations and conditions. Your pharmacy benefit is generally not limited to the drugs listed on the formulary. The medications listed on the formulary are subject to change in accordance with applicable state law. For information regarding how medications are reviewed and selected for the formulary, formulary information, and information about other pharmacy programs such as pre-certification and step-therapy, please refer to Aetna's website at Aetna.com, or the Aetna Medication Formulary Guide. Aetna receives rebates from drug manufacturers that may be taken into account in determining Aetna's Preferred Drug List. Rebates do not reduce the amount a member pays the pharmacy for covered prescriptions. In addition, in circumstances where your prescription plan utilizes copayments or coinsurance calculated on a percentage basis or a deductible, use of formulary drugs may not necessarily result in lower costs for the member.

Members should consult with their treating physicians regarding questions about specific medications. Refer to your plan documents or contact Member Services for information regarding the terms and limitations of coverage.
