PLAN DESIGN AND BENEFITS - PA Health Network Option AHF HRA 1.4 (\$2,500 Ded)

** You may choose providers in our network (physicians and facilities) or may visit an out-of-network provider. Typically, you will pay substantially more money out of your own pocket if you choose to use an out-of-network doctor. The out-of-network provider will be paid based on Aetna's "recognized charge." This is not the same as the billed charge from the doctor.

Aetna pays a percentage of the recognized charge, as defined in Your plan. The recognized charge for out-of-network hospitals, doctors and other out-of-network health care providers is a percentage (100 percent or above) of the rate that Medicare pays them.

You may have to pay the difference between the out-of-network provider's billed charge and Aetna's recognized charge, plus any coinsurance and deductibles due under the plan. Note that any amount the doctor or hospital bills you above Aetna's recognized charge does not count toward your deductible or out-of-pocket maximums.

This benefit applies when you choose to get care out of network. When you have no choice in the doctors you see (for example, an emergency room visit after a car accident), your deductible and coinsurance for the in-network level of benefits will be applied, and you should contact Aetna if your doctor asks you to pay more. Generally, you are not responsible for any outstanding balance billed by your doctors in an emergency situation.

*** A member may at anytime seek health care from Participating Providers without first contacting his or her Primary Care Physician. When a member chooses not to use his or her Primary Care Physician, the member is entitled to receive benefits for covered services and supplies. A member will be subject to the Primary Care Physician (PCP) cost-share when a member obtains covered benefits from any participating Primary Care Physician. A member will be subject to the Specialist cost-share when a member obtains covered benefits from any participating Specialist.

(19) Weight control services including surgical procedures, medical treatments, weight control/loss programs, dietary regimens and supplements, appetite suppressants and other medications; food or food supplements, exercise programs, exercise or other equipment; and other services and supplies that are primarily intended to control weight or treat obesity, including Morbid Obesity, or for the purpose of weight reduction, regardless of the existence of comorbid conditions.

This material is for informational purposes only and is not an offer or invitation to contract. An application must be completed to obtain coverage. Rates and benefits vary by location. Health benefits and health insurance plans contain exclusions and limitations. Not all health services are covered. See plan documents for a complete description of benefits, exclusions, limitations and conditions of coverage. Plan features and availability may vary by location and are subject to change.

Providers are independent contractors and are not agents of Aetna. Provider participation may change without notice. Aetna does not provide care or guarantee access to health services. If you are in a plan that requires the selection of a primary care physician and your primary care physician is part of an integrated delivery system or physician group, your primary care physician will generally refer you to specialists and hospitals that are affiliated with the delivery system or physician group. In case of emergency, call 911 or your local emergency hotline, or go directly to an emergency care facility.

If your plan covers outpatient prescription drugs, your plan may include a drug formulary (preferred drug list). A formulary is a list of prescription drugs generally covered under your prescription drug benefits plan on a preferred basis subject to applicable limitations and conditions. Your pharmacy benefit is generally not limited to the drugs listed on the formulary. The medications listed on the formulary are subject to change in accordance with applicable state law. For information regarding how medications are reviewed and selected for the formulary, formulary information, and information about other pharmacy programs such as pre-certification and step-therapy, please refer to Aetna's website at Aetna.com, or the Aetna Medication Formulary Guide. Aetna receives rebates from drug manufacturers that may be taken into account in determining Aetna's Preferred Drug List. Rebates do not reduce the amount a member pays the pharmacy for covered prescriptions. In addition, in circumstances where your prescription plan utilizes copayments or coinsurance calculated on a percentage basis or a deductible, use of formulary drugs may not necessarily result in lower costs for the member.

Members should consult with their treating physicians regarding questions about specific medications. Refer to your plan documents or contact Member Services for information regarding the terms and limitations of coverage.

Aetna Rx Home Delivery refers to Aetna Rx Home Delivery, LLC, a subsidiary of Aetna, Inc., that is a licensed pharmacy providing mail-order pharmacy services.
